

star = 1 5

Ques 13:

n = 5

```

(row < n) star++
else star--

```

row ≤ 5 

n = 7

row = 1

star

space = 1

star = n/2

```

while(row <= n){

```

```

//star
int i = 1
while(i <= star){
    cout(*) i++
}

```

```

//space
int j = 1
while(j <= space){
    cout(" "); j++
}
//star

```

```

}
//next line

```

 $n/2 + 1$

3 + 1

```

if(row < n/2 + 1){
    space += 2
    star--
}

```

```

} else {
    space -= 2
    star++
}

```

```

cout++
cout();

```

```

if(row < n/2 + 1){
    space--
    star += 2
} else {

```

} space +
space = 2

Ques 19:

n = 7

$$\underline{-1} + \underline{2} = 1 + 2 = 3 + 2 = 5$$

$$row < n/2 + 1$$
